

SLNB IN HEAD AND NECK CANCER

Invitation to Expert Training

For ORL and maxillofacial surgeons, head and neck oncologists
and nuclear medicine staff

FRIDAY 13 DECEMBER 2019

Hotel Pullman Brussel

Dear Colleagues,

I would like to invite you to our SLNB training program on Sentinel Lymph Node Biopsy for the management of patients with early oral cancer. SLNB is an alternative for neck dissection and should be considered for early T1/T2 mouth cancer.

With our program we want to help to introduce H&N SLNB, with a maximal accuracy delivered by a team of people and services working together.

Program

12.30 Welcome – Lunch

SLNB Training

13:00 Radioprotection regulation / Nuclear Medicine Perspective | *Pr Th. Vander Borgh*
